

MODULE 2: EFFECTIVE WAYS TO GIVE MEANINGFUL FEEDBACK

PDEV 6800

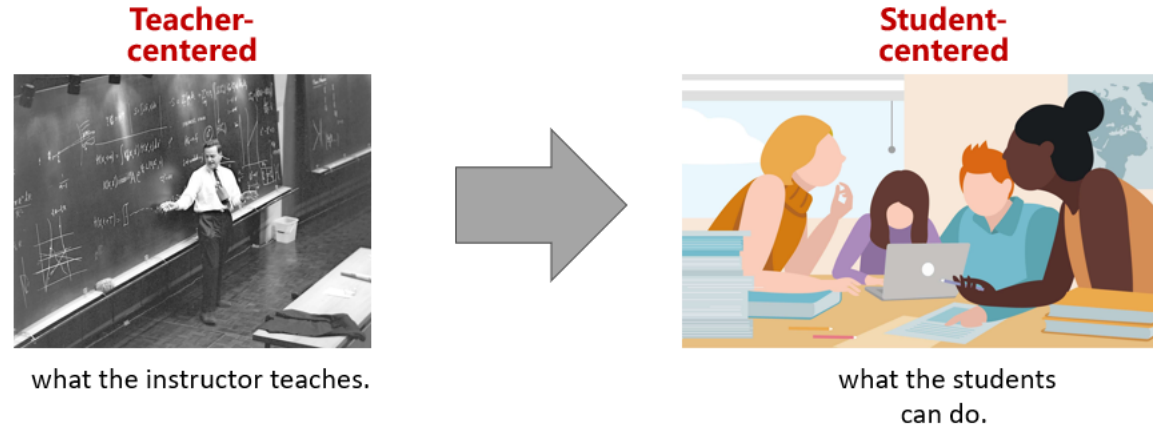

INTRODUCTION TO TEACHING AND LEARNING IN HIGHER EDUCATION

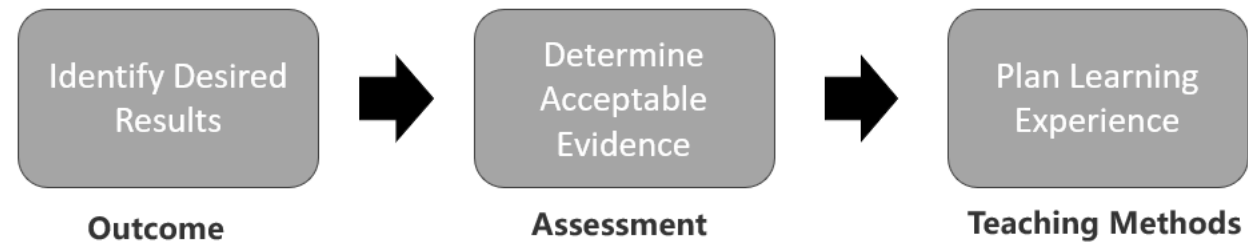

INSTRUCTOR FOR T11: FELICIA WONG YEN MYAN

QUICK RECAP

- The shift from traditional, teacher-centered lecturing to student-centered learning today

- Outcome-based education & constructive alignment to ensure students learn better

Backward Design Process to ensure **CONSTRUCTIVE ALIGNMENT**

QUICK RECAP

- What is active learning & what are the strategies
 - Anything that involves students in **DOING** things and **THINKING** about the things they are doing.

GENTLE REMINDER

- : Please complete Quiz 1 and 2 on Canvas by this week

COURSE SCHEDULE

**Plan &
Design**

**Grading &
Feedback**

**Prepare &
Deliver**

**Manage
Canvas**

**Deliver
Tutorials**

Week 6

Creating an
active learning
environment

Week 7

Effective ways
to give
meaningful
feedback

Week 8

Effective
presentation
and facilitation
skills

Week 10

Digital tools to
facilitate
teaching and
learning

Week 12

Micro-
teaching to
demonstrate an
active learning
strategy in
tutorial

Note: Due to time constraints, the micro-teaching sessions will be held in Week 10 and Week 12. Specifically, **two groups will likely deliver their presentations in Week 10**, while the **remaining groups will conduct theirs in Week 12** (to be updated again if

INTENDED LEARNING OUTCOMES FOR MODULE 2

- **ILO-1: Design effective assessment methods according to the learning outcomes.**
- **ILO-2: Provide meaningful feedbacks to teaching and learning activities.**

TODAY' S ROADMAP

Types of
Assessment.

Giving Constructive and
Meaningful Feedback

Rubrics Workshop

Feedback Practice
Exercise

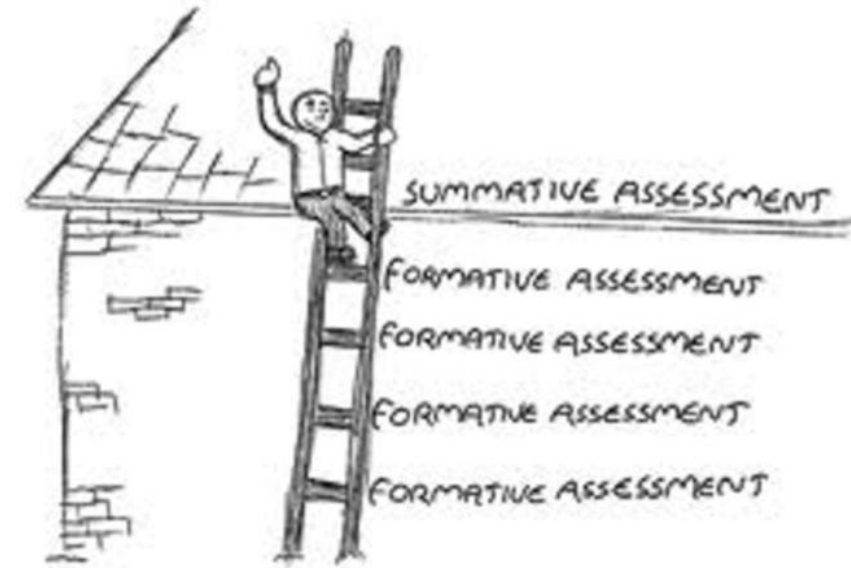

Micro-Teaching
Demo Briefing

Types of Assessment

01

FORMATIVE ASSESSMENT VS SUMMATIVE ASSESSMENT

Aspect	Formative Assessment	Summative Assessment
Purpose	To Improve Learning (Feedback & Checkpoints)	To Measure Learning (Final Evaluation & Grading) cumulatively
When	During the learning process (Throughout)	At the End of a unit/course or an instructional period
Stakes	Low or No-Stakes	High-Stakes
Role	Diagnostic (Finds gaps)	Evaluative (Judges level)

IN-CLASS ACTIVITY: ASSESSMENT TRIAGE (~5 - 10MINS)

Goal: To distinguish between **FORMATIVE ASSESSMENT** (checkpoints for learning) and **SUMMATIVE ASSESSMENT** (final evaluations of learning).

- As a class, let's sort the following assessments:

FINAL EXAM

***WEEKLY QUIZZES**
(unlimited attempts)

THINK-PAIR-SHARE

CAPSTONE PROJECT

***LABORATORY
REPORT**

**DRAFT OF A RESEARCH
PAPER SUBMITTED FOR
FEEDBACK**

**PEER REVIEW OF A
PRESENTATION**

***PORTFOLIO OF WORK
COMPILED OVER THE
SEMESTER**

- Which assessment is suitable for active learning? Why?
- For the assessments marked with a (*) symbol, why do you think it is that type of assessment? Justification?

Giving Constructive and Meaningful Feedback

02

WHY IS FEEDBACK IMPORTANT?

- Coupled with practice, feedback **helps students focus on the aspects they need to master.**
- **Guide students** on where they are and what to work on.
- What forms of feedback are there?
 - **Written**: Comments on essay/term paper/problem set
 - **Oral**: In-person feedback
 - **Grade/scores**: Results of assessment is also a form of feedback

EMPATHY ACTIVITY: THE POWER OF FEEDBACK

Purpose: **To connect today's topic to your own experiences.** Recall not just the words, but the feeling that came with them

We'll do this in 3 steps:

- Step 1: Brainstorm Silently (3 mins)
- Step 2: Share in Pairs (5 mins)
- Step 3: Takeaways (7 mins)

EMPATHY ACTIVITY: THE POWER OF FEEDBACK – STEP 1 (BRAINSTORM INDIVIDUALLY)

Don't overthink it! Just jot down a few notes based on the following:

Positive Feedback Experience *(the “Aha!..” moment)*

- *Think of a time feedback helped you improve.*
- Was it on an **assignment, project, or presentation**?
- Did a **professor, TA, or supervisor** give you a tip that just "clicked"?
- Did **peer feedback** suddenly make something clear?

Negative Feedback Experience *(The "Ugh..." Moment)*

- *Think of a time when feedback was confusing or demotivating.*
- Was it a **vague** comment like "needs more depth" or "good job"?
- Did you get a low grade with **no explanation**?
- Was feedback given too late to be useful?

EMPATHY ACTIVITY: THE POWER OF FEEDBACK - STEP 2 (PAIR & SHARE)

- Now, turn to a partner and share one story each.
- As you listen, pay attention to:
 - What specific words did the feedback use?
 - How did it make your partner **feel**?
 - What was the **impact** on their motivation?

Now, as a class let's hear from a few of you. what patterns are we noticing?

EMPATHY ACTIVITY: THE POWER OF FEEDBACK - STEP 3 (KEY TAKEAWAYS)

What makes feedback effective?

GOOD

BAD

✓ **SPECIFIC**

"The **example** you used **on slide 4** really clarified the concept."

"Good content." ✗

✓ **ACTIONABLE**

"Next time, try pausing after key points to let students absorb the information."

"Your pacing was off." ✗

✓ **TIMELY**

"Right after your presentation..."

"Weeks later when you've moved on..." ✗

✓ **BALANCED**

"Your opening hook was engaging! Now let's work on making your conclusions equally strong."

"You made 3 grammatical errors." ✗

✓ **OBJECTIVE**

"The rubric shows the evidence section needs more sources."

"I don't like how this feels." ✗

EMPATHY ACTIVITY: THE POWER OF FEEDBACK - STEP 3 (KEY TAKEAWAYS)

Rubrics Workshop

03

GRADING FOR GTAs

As a Graduate Teaching Assistant, you may be tasked **with marking & grading assignments**

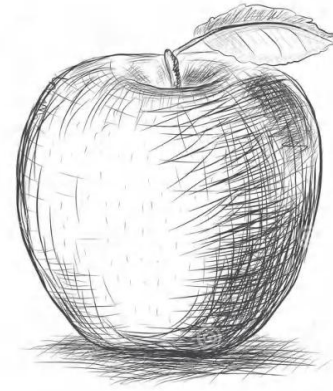

- Let's role play for a bit: You are a GTA teaching a tutorial of a visual-art course.
- In the last tutorial, **you assigned your students to complete a drawing of apple.** Now, you finally have time to sit down and grade your students' works.

WHICH APPLE DRAWING SCORES THE HIGHEST?

A

B

C

D

Insert QR code for
students to participate

GRADING FOR GTAs

As a Graduate Teaching Assistant, you may be tasked with marking & grading assignments

- Do you think your grading was fair? Was it hard to determine which apple was the best?
- Why?
 - **No measurable criteria of evaluation.**
 - **Unknown expectations**
- What if the following criteria were given:
 - The highest-scoring apple should **represent the subject shape** truthfully with **little to no artificiality**
 - The highest-scoring apple should be **of a color** that can enhance the **authentic expression** of the subject

A

B

C

D

Which apple should score the highest now?

WHAT ARE RUBRICS ?

1. A standardized scoring guide/tool that clearly outlines a coherent set of important marking criteria

PDEV6800Y Micro-teaching Assessment Rubric
The Hong Kong University of Science and Technology (Guangzhou)

Criteria		Excellent (E)	Competent (C)	Developing (D)
Lesson Plan	Course Information and Rundown	The lesson plan included all the necessary information about the course and the topic to teach. The rundown is clear with explicitly defined purposes; what to cover; and how to cover for each time session.	The lesson plan included some information about the course and the topic to teach. The rundown is somewhat clear with purposes; what to cover; and how to cover for each time session.	The lesson plan lacked information about the course and the topic to teach. The rundown is unclear about the purposes; what to cover; and how to cover for each time session.
	Intended Learning Outcomes (ILOs)	The lesson plan included two well-articulated learning outcomes that followed the ABCD model with a clear structure of <i>behavior, condition, and degree</i> .	The lesson plan included one clear learning outcome that followed the ABCD model with the structure of <i>behavior, condition, and degree</i> .	The lesson plan included a vague learning outcome(s) that doesn't follow the ABCD model.
	Active Learning Strategies (ALS)	The lesson plan integrated two active learning strategies throughout the lesson. Both ALS are suitable to achieve the ILOs.	The lesson plan integrated one active learning strategy throughout the lesson. The ALS is suitable to achieve the ILOs.	The lesson plan integrated active learning strategies throughout the lesson, but the ALS are not suitable to achieve the ILOs.
	Constructive Alignment	The learning outcomes, learning activities, and learning assessment are constructively aligned for the 50-min tutorial.	The learning outcomes, learning activities, and learning assessment are somewhat aligned for the 50-min tutorial.	The learning outcomes, learning activities, and learning assessment are not aligned for the 50-min tutorial.

WHAT ARE RUBRICS ?

1. A standardized scoring guide/tool that clearly outlines a coherent set of important marking criteria
2. A rubric provides a **set of criteria** that includes **concrete descriptions** of levels of performance for each criterion

WHAT ARE RUBRICS ?

1. A standardized scoring guide/tool that clearly outlines a coherent set of important marking criteria
2. A rubric provides a set of criteria that includes concrete descriptions of levels of performance for each criterion
3. A rubric uses specific, observable indicators to define performance levels for each criterion, removing ambiguity and promoting objective, consistent assessment.
4. A tool to increase grading fairness and consistency, reducing bias between different graders.

IN-CLASS ACTIVITY: CREATE RUBRICS FOR MICRO-TEACHING DEMO

Goal: Design a simple, effective rubric to evaluate teaching presentations in Session 5.

- **Your Rubric MUST Include These 4 Criteria:**
 - 🎯 **Learning & Engagement:** *Does the slide design promote active learning and clear outcomes?*
 - 💬 **Feedback Opportunity:** *Does the content allow for specific, actionable feedback?*
 - ✨ **Slide Quality & Flow:** *Are the visuals clear, and does the lesson flow logically?*
 - 🛠️ **Digital Tool Integration:** *Are digital tools used purposefully to enhance teaching?*
- For each criterion, define what **Excellent**, **Competent**, and **Developing** performance looks like
- Keep descriptions **clear and observable**
- **Time:** ~ 15 minutes

This same rubric will be used later to practice giving feedback!

You may use
GenAI to assist
you as well

Feedback Practice

Exercise

04

IN-CLASS ACTIVITY: PROVIDING MEANINGFUL FEEDBACK

- Now, we're going to practice giving constructive, meaningful feedback.
- **Goal:** To learn how to give specific, meaningful feedback
- **Instructions:**
 - Form groups of 3 – 4 students
 - Discuss the **sample slides** provided.
 - Practice providing feedback on the slides.
 - Be prepared to share your findings with the class.

IN-CLASS ACTIVITY: PROVIDING MEANINGFUL FEEDBACK

- **Step-by-Step instructions:**
- **1. Individual Review**
 - Review sample slides **individually**
 - Use the rubric from the earlier activity to note **strengths & opportunities for improvement**
- **2. Group Discussion** Share findings & agree on **top feedback points**
 - Ensure feedback is **specific & actionable**
 - Document using:
 - ✓  **2+ Strengths** (with rubric evidence)
 - ✓  **2+ Actionable Suggestions**
- **3. Class Share-Back**
 - Each group shares **key insights**
 - Explain how the **rubric improved** your feedback

Micro-Teaching Demo

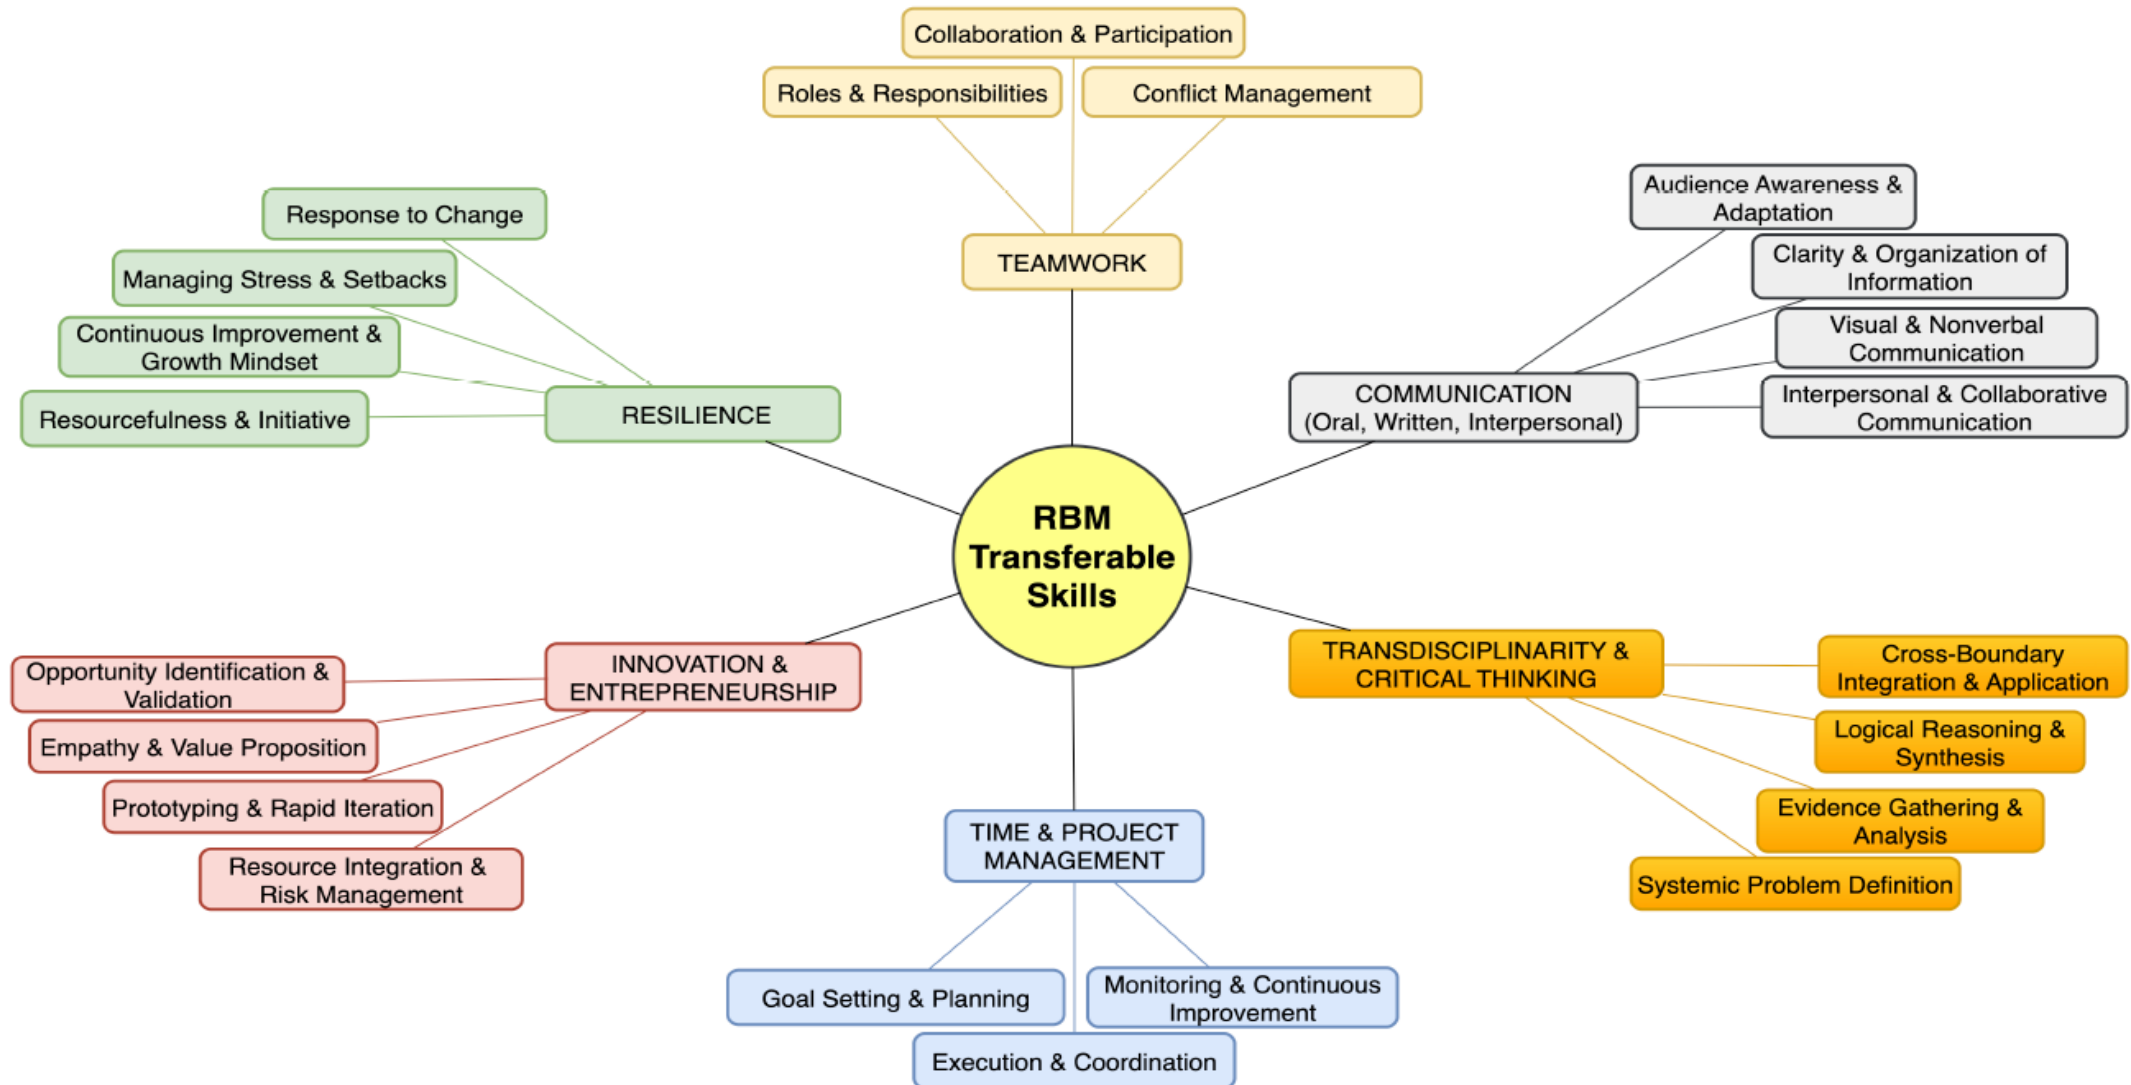

Briefing

05

MICRO-TEACHING DEMO BRIEFING

- The micro-teaching demo is a short, focused teaching presentation that should be delivered in groups as part of fulfilling the requirements of this course.
- **When does it take place:** Sessions 4 and 5.
- **Group Size:** 4-5 students per group.
- **Duration:** Each demo will be **20 minutes** long.
- **Core Topic:** Your teaching demo must be based on ONE dimension/skill from the **RBM Transferable Skills Framework**.

RBM TRANSFERABLE SKILLS FRAMEWORK

GROUP FORMATION & SELECTION OF TEACHING SESSION (10 MINUTES)

- **Step 1 - Form Groups:** Assemble into groups of **4-5 students**.
 - Go to Canvas and 'Self sign-up' into a group once your group members are confirmed.
- **Step 2 - Choose a Topic:** Discuss and agree on **ONE** RBM skill dimension your group will teach.
- **Step 3 - Appoint a Leader:** Select one person to complete the registration survey for the entire group.
- **Step 4 – Decide the following as a group:**
 - Your chosen RBM skill dimension.
 - Your preferred presentation session (Session 4 or 5)
- **Step 5 - Why do this now?**
 - Secure your preferred presentation date.
 - Get started on planning your demo early.
 - Ensure all groups are registered by the end of today's session.

Groups (8)

▶ Micro-Teaching Demo 1	0 / 5 students	⋮
▶ Micro-Teaching Demo 2	0 / 5 students	⋮
▶ Micro-Teaching Demo 3	0 / 5 students	⋮
▶ Micro-Teaching Demo 4	0 / 5 students	⋮
▶ Micro-Teaching Demo 5	0 / 5 students	⋮
▶ Micro-Teaching Demo 6	0 / 5 students	⋮
▶ Micro-Teaching Demo 7	0 / 5 students	⋮
▶ Micro-Teaching Demo 8	0 / 5 students	⋮

PICK YOUR MICRO-TEACHING DEMO SESSION

- **Presentation schedule plan:**

- **Session 4:** 2 groups will present.
- **Session 5:** Remaining groups will present.

- After you have your groups, please click the link below and select only ONE session. You should select only one teaching session.

- https://hkustgz-my.sharepoint.com/:x:/g/personal/feliciawong_hkust-gz_edu_cn/Ebn5gSt5gDFMqTpMK3yrGnIBtiS5MDrKuJg7gt-KScI2QQ?e=5tpcm8

- **Important Notes:**

- Slots are first-come-first-serve basis. If possible, complete the survey **before leaving class today** to confirm your group's selection.

THANK YOU! QUESTIONS?
