

Module 3: Effective Presentation and Facilitation Skills

PDEV 6800

INTRODUCTION TO TEACHING AND LEARNING IN HIGHER EDUCATION

INSTRUCTOR : FELICIA WONG YEN MYAN

Attendance - 27th of October
2025

COURSE SCHEDULE

**Plan &
Design**

**Grading &
Feedback**

**Prepare &
Deliver**

**Manage
Canvas**

**Deliver
Tutorials**

Week 6

Creating an
active learning
environment

Week 7

Effective ways to
give meaningful
feedback

Week 8

Effective
presentation
and facilitation
skills

Week 10

Digital tools to
facilitate
teaching and
learning

Week 12

Micro-teaching
to demonstrate
an active
learning strategy
in tutorial

RECAP

Covered so far:

1. Active Learning
2. Providing constructive feedback
3. Design assessments & the rubrics

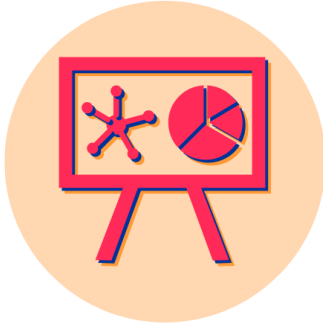

How to deliver the teaching content?

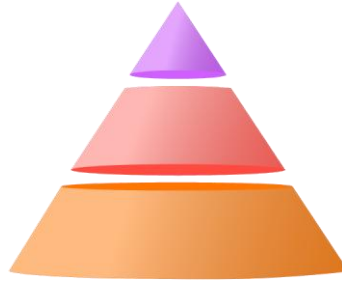

INTENDED LEARNING OUTCOMES (ILOs)

- **ILO 1 - Create an interactive, audience-friendly presentation**
- **ILO 2 - Apply the 5E and Bookend Model in your Micro-teaching lesson plan**
- **ILO 3 - Facilitate an engaging teaching & learning session**

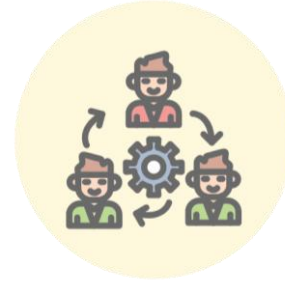

ROADMAP FOR TODAY

**Presentation Design
& delivery**

**Structured
Presentation**

**Structured
Facilitation**

WHAT IS COMMUNICATION?

Communication is the act of **TRANSFERRING INFORMATION** from one place or person to another - thoughts, opinions, and ideas, etc.

TYPES OF COMMUNICATIONS

Communication relies on **language** and **extends beyond** it, which can be strategic and purposeful!

Verbal

Nonverbal

Written

Visual

Communication in a **presentation**?

PPT + Delivery?

IN-CLASS ACTIVITY - GROUP DISCUSSION

In groups of 4, discuss: What makes a presentation good and impressive?

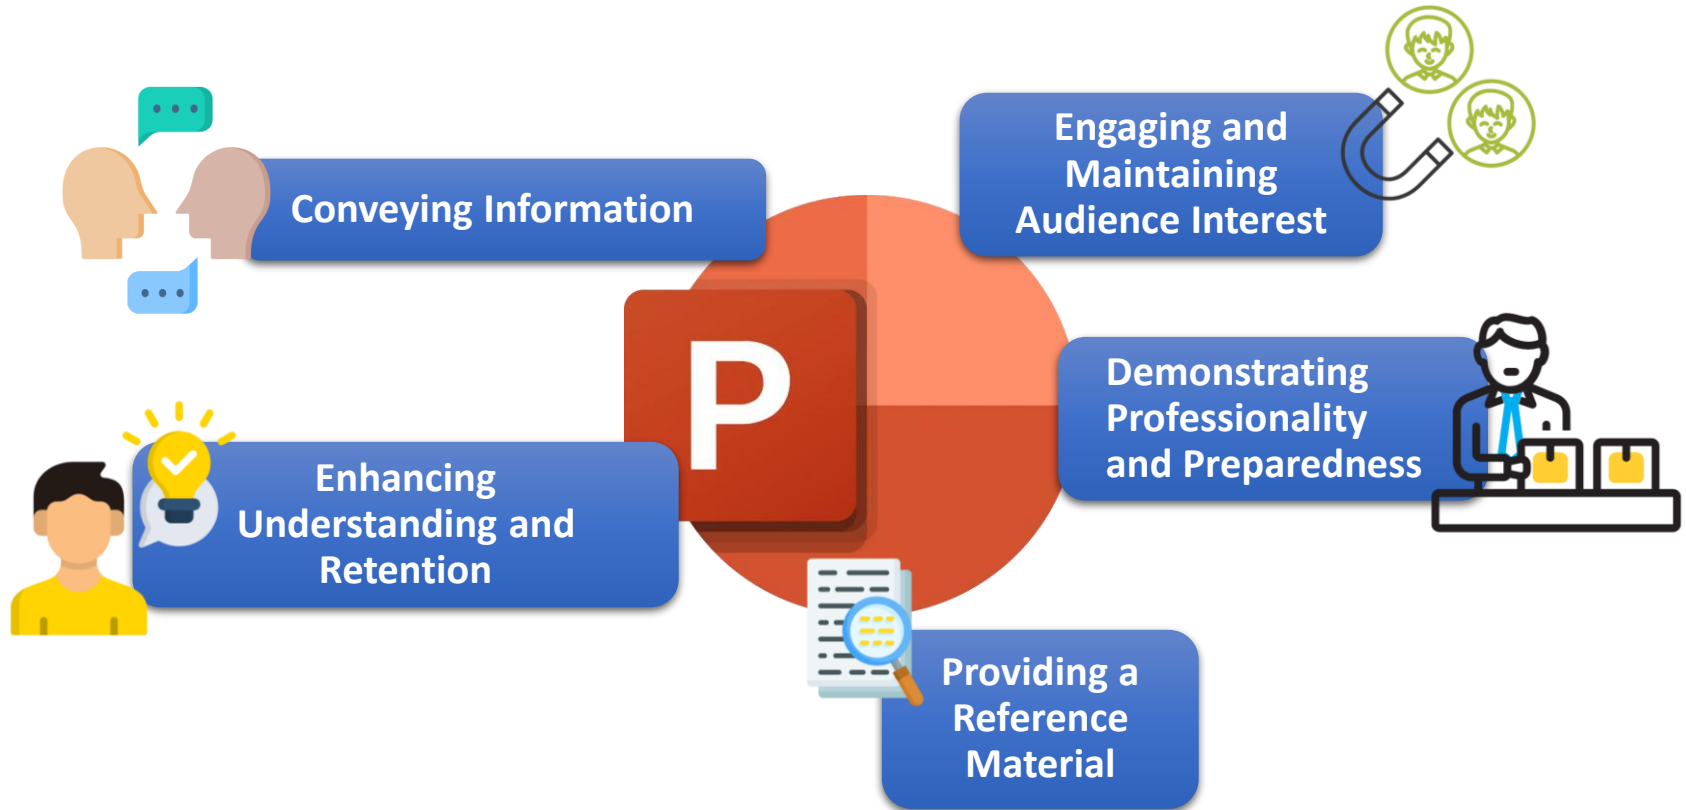

Presentation

Design & Delivery

01

PURPOSE AND FUNCTION OF PPT SLIDES

CRAFTING YOUR SLIDES – DESIGN FOR IMPACT! –

TEXT & FONTS

Glacial Formation

- Glaciers are created when layer upon layer of snowfall builds up and becomes compacted into a dense form of ice because of its own weight
- The weight of the resulting ice eventually becomes so heavy that gravity forces the ice mass downhill very slowly
- This movement is helped by the fact that ice at the bottom of the glacier is under intense pressure, which in turn creates heat and melts the ice enough to provide a slippery surface against the mountain surface
- As the ice begins to move down the mountain, more snow continually builds up at the glacier's source, gets converted into ice, and itself flows downward, creating an elongated, disheveled, frozen river
- Glaciers that travel down valleys between mountains gradually grind away the mountainsides by a continual process of thawing and freezing that fractures rocks, the pieces of which are picked up and carried away
- Changing weather patterns and planet temperatures cause the glacier to grow (advance) or shrink (retreat) in cycles throughout the millennia.

7 X 7 Rule:

- No more than 7 words per bullet
- No more than 7 bullets per slide

CRAFTING YOUR SLIDES – DESIGN FOR IMPACT! - HEADERS

Introduction

- A solar panel is an assembly of photo-voltaic cells.
- Solar panels use sunlight as a source of energy to generate electricity.
- A collection of PV modules is called a PV panel and a system of panels is an array.

VS

What are solar panels?

- A solar panel is an assembly of photo-voltaic cells.
- Solar panels use sunlight as a source of energy to generate electricity.
- A collection of PV modules is called a PV panel and a system of panels is an array.

CRAFTING YOUR SLIDES – DESIGN FOR IMPACT! – COLOURS & READABILITY

Be mindful of use
of colours.

Lots of people can't read this – even
if they could, it makes your eyes hurt.

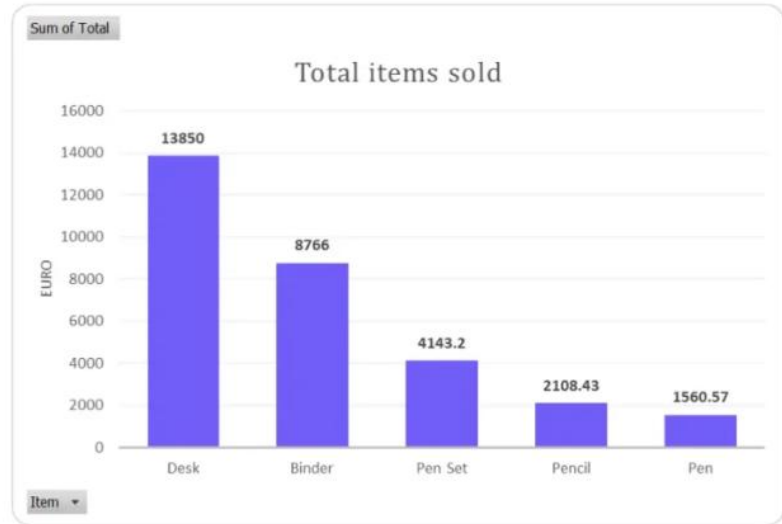

Lots of people can't read this – even
if they could, it makes your eyes hurt.

Light backgrounds, dark texts are often
easier to see and less hurtful on the eyes.

CRAFTING YOUR SLIDES – DESIGN FOR IMPACT! – CLARITY & VISUALISATION

Cluttered chart
(bad data visualization example)

Clean chart
(good data visualization example)

CRAFTING YOUR SLIDES – DESIGN FOR IMPACT! –

CITATIONS

Cumulative confirmed COVID-19 cases per million people, May 2, 2021

The number of confirmed cases is lower than the number of actual cases; the main reason for that is limited testing.

Our World
in Data

No data 10 100 500 1,000 5,000 10,000 20,000 40,000 >80,000

DELIVERY STYLES – VERBAL & NON-VERBAL CUES

DOs

- Confidence,
- Pacing & Fluency,
- Minimize jargon
(i.e., *technical terms that audience does not understand*)

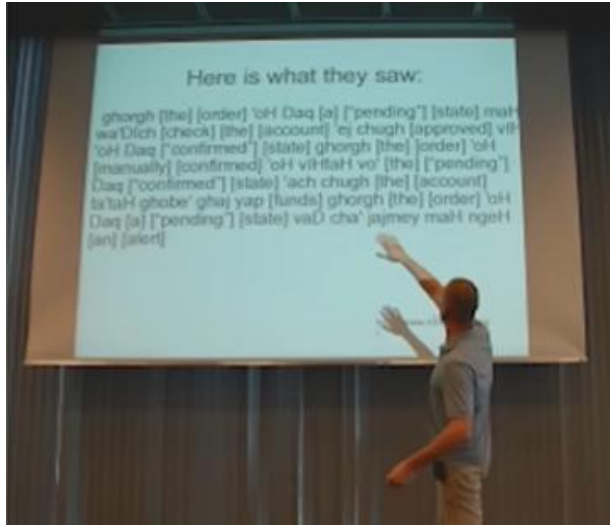

Eye Contact

Hand gestures & Appropriate Body Language

DELIVERY STYLES – VERBAL & NON-VERBAL CUES = **DON'TS**

DO NOT!: Read from slides, talk to the board, use filler words.

GOOD PRESENTATION – SURVIVAL GUIDE

What is the **BEST** way to improve your presentation skills?

Practice, practice and
practice!

Structuring Your Presentation

02

CRAFTING YOUR PRESENTATION: CONTENT & FLOW

*Start with the **GOAL***

*What should your audience **KNOW** by the time they leave?*

*Create the **STRUCTURE**. How?*

Problem (Hook & Why) → Solution

OR

Story-telling

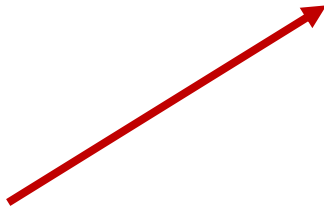

OR

What (Hook & Why)? → So What? → Now What?

***CHUNK** the Info*

If possible, break content into 5 – 10-minute segments

ONE key concept per chunk

All approaches are about
clear beginnings → core content (middle) → end

IN-CLASS ACTIVITY: 3MT CASE STUDY

Case Study & Group Sharing

- The 3 Minute Thesis (3MT®) competition requires researchers to compete to deliver the best research presentation in just 3 minutes (and one slide).

Instructions: In your groups,

- Select one video on Canvas for this activity.
- Based on your analysis of the videos, please comment or answer the following questions:
- What strategies were utilized to ensure that the presentations were concise but creative & interactive?
- Is there anything that can be done to improve the presentation further?

Look out for...

Module 3: Effective Presentation and Facilitation Skills		
Module 3 Pre-class materials		✓
Pre-class Quiz 3 (Due: 11:59pm Oct 30) Oct 30 5 pts		✓
Write a reflection (2-3 sentences) on key takeaways for the Module 3 (Due: 23:59, on Oct 31)		✓
3MT video example 1		✓
3MT video example 2		✓
3MT example video 3		✓
3MT video example 4		✓
3MT video example 5		✓

**Problem (Hook & Why) →
Solution**

OR

Story-telling

OR

**What (Hook & Why)? → So What?
→ Now What?**

SUMMARY SO FAR....

To deliver good presentation,

- **Structure with Purpose:** Clear goal → logical flow
- **Design for Impact:** Visuals over text, readable fonts, high contrast
- **Deliver with Connection:** Eye contact, clear speech, minimal jargon
- **Start with "Why":** Use hooks to engage immediately
- **Chunk Content:** Short segments, one concept each
- **Prioritize Interaction:** Concise storytelling over information-dumping

Structured Facilitation

03

FROM PRESENTING TO FACILITATING

Presenting is often 1 – way
(informing)

Facilitation is 2-way
(guiding learning).

Your role as a GTA is
primarily that of a **facilitator**

Know your students:
Novices or experts?
What is their prior knowledge

TEACHING METHOD FOR MICRO-TEACHING DEMO

As GTA, the **TEACHING METHODS** will also *impact your presentation & facilitation* of a lesson

TEACHING METHOD FOR MICRO-TEACHING DEMO

Ask Yourself: "What do I want my students to **BE ABLE TO DO** by the end of my 20-minute micro-teaching session?"

Knowledge acquisition

lectures, e-learning, and flipped classroom methods etc.

Understanding and analysis

interactive sessions, group discussions, and case studies etc.

Skill development

hands-on training, simulations, and group work etc.

Application

case studies, project-based learning, and hands-on training etc.

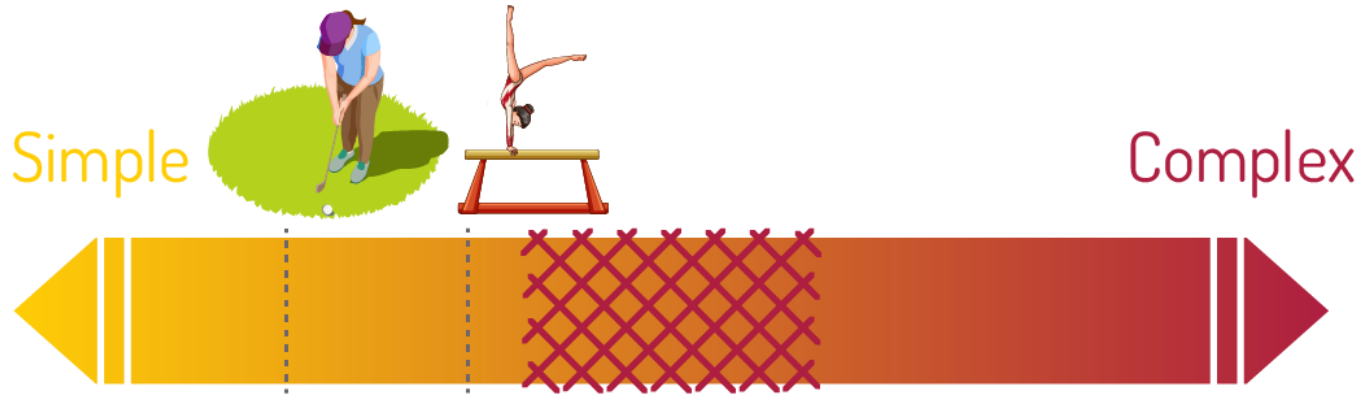

Evaluation and synthesis

group work, peer teaching, and interactive sessions etc.

It's essential to align teaching methods appropriately to achieve the desired learning outcomes,

TEACHING METHOD FOR MICRO-TEACHING DEMO

In your micro-teaching demo, remember that you should demonstrate the application of an **active learning** strategy

LOW-STAKES / SIMPLE:

- Think-Pair-Share
- Polling (Mentimeter, Poll Everywhere)
- Minute Paper

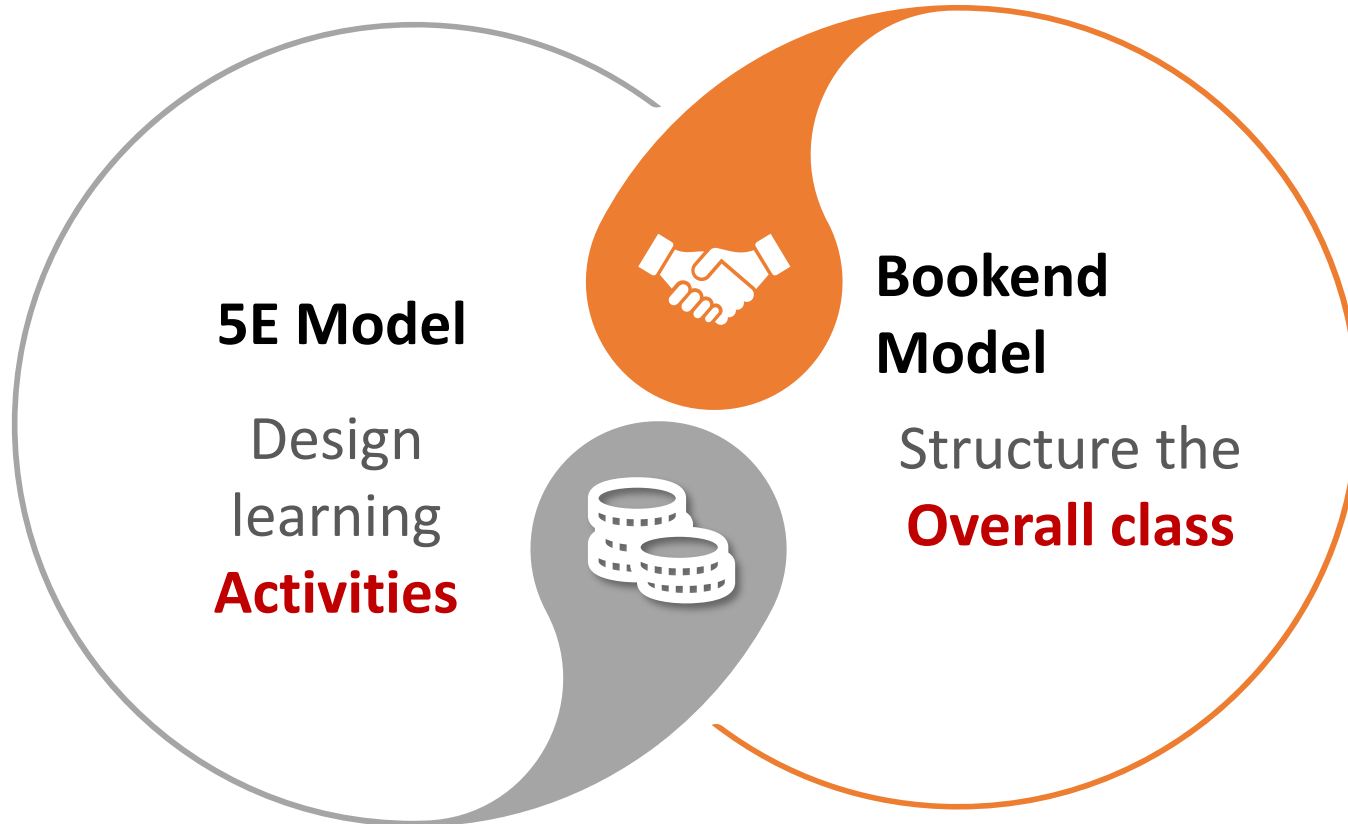

COLLABORATIVE / MODERATE:

- Case Studies
- Jigsaw
- Structured Debates

HIGH-STAKES / COMPLEX:

- Problem-Based Learning
- Project-Based Learning
- Peer Instruction

2 APPROACHES TO STRUCTURING FACILITATION

STRUCTURED FACILITATION - 5E MODEL FOR ACTIVITY DESIGN

Explore

- Get students directly involved in the topic
- Active and inquiry-based learning

Elaborate

- Construct new learning
- Help students apply prior learning and acquire new

01

Engage

- Hook students' attention
- Establish relevancy

02

03

Explain

- Reflective process
- Students demonstrate their understandings

04

05

Evaluate

- Assess learning
- Help students measure learning

5E MODEL EXAMPLE – ANDREW NG’ S MACHINE

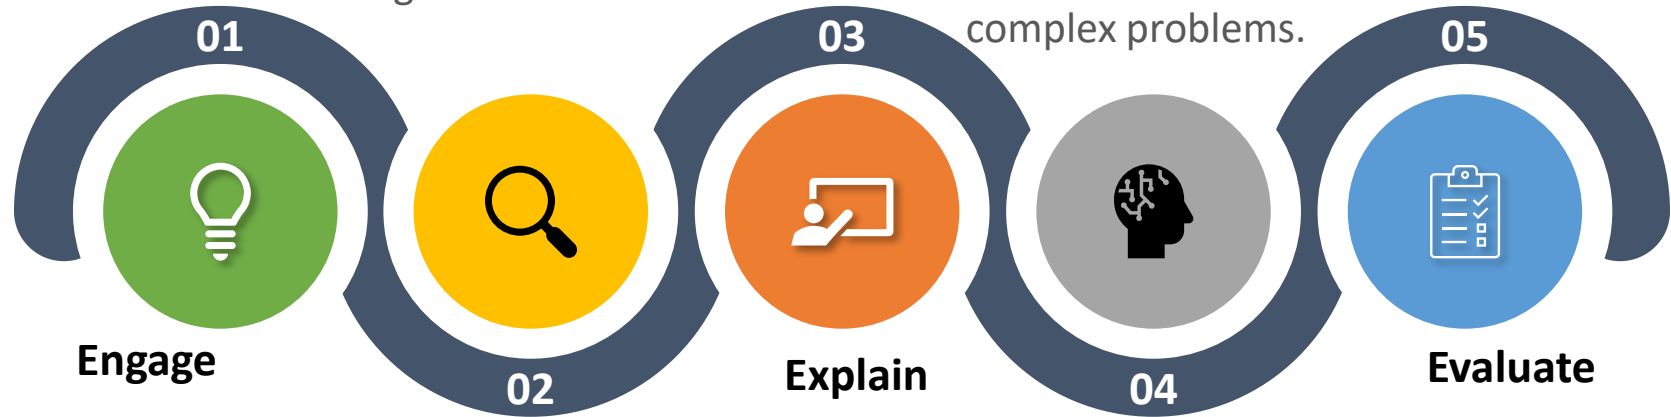

LEARNING CLASS ACTIVITY

Explore

Elaborate

- Student Problem-Solving: Students explore concept through hands-on task.

- Extended Practice: Students elaborate by applying the concept to new, more complex problems.

- Recap & Warm-Up: Connects new material to prior knowledge
- Pose a Question: Creates curiosity

- Discussion & Q&A: Students explain their thinking; instructor clarifies and builds on it.

- Ongoing Assessment: Instructor evaluates understanding in real-time through observation and Q&A

STRUCTURED FACILITATION BOOKEND MODEL TO STRUCTURE A CLASS

The Hook:
Engage + “The Why”

Overview

5 min

The Wrap-up:
Summary + Key-
takeaways

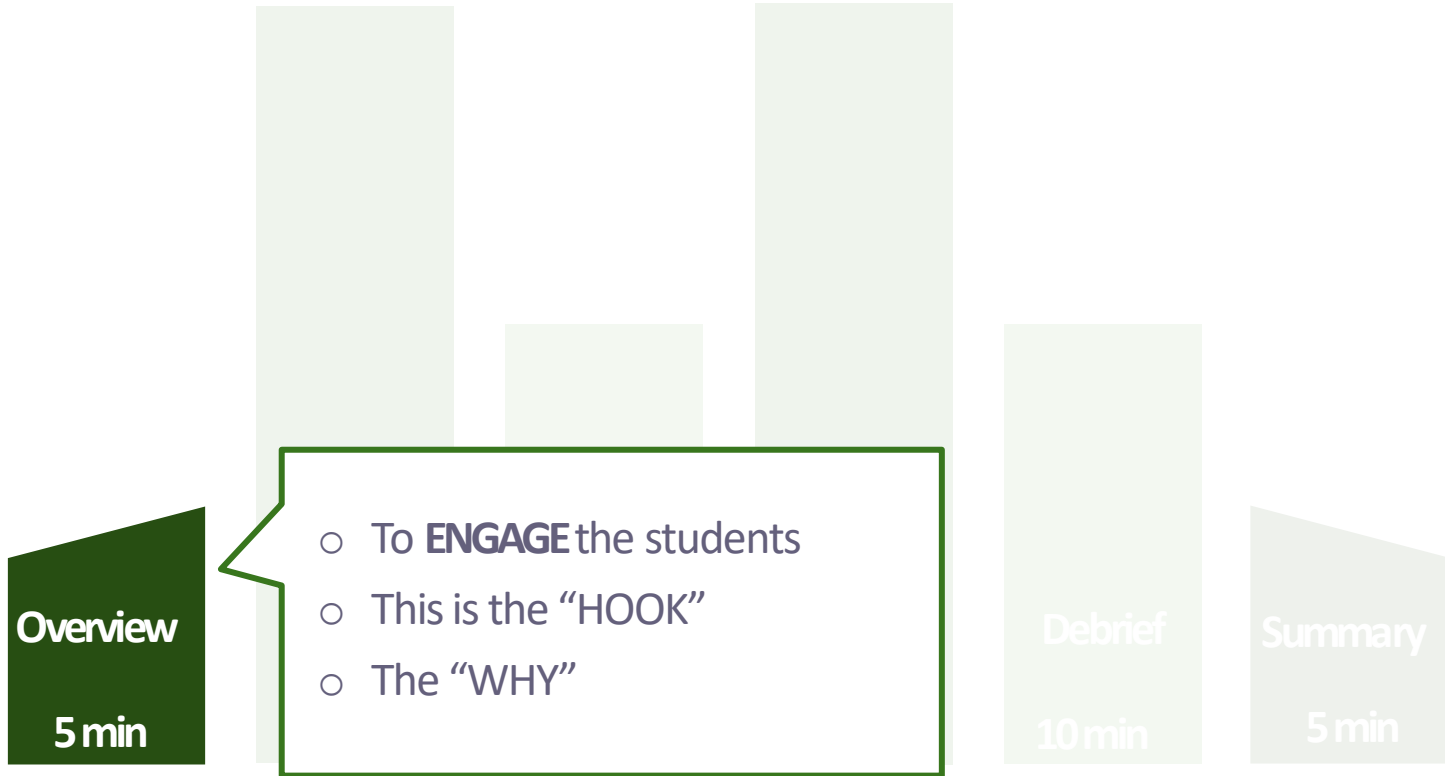

Summary

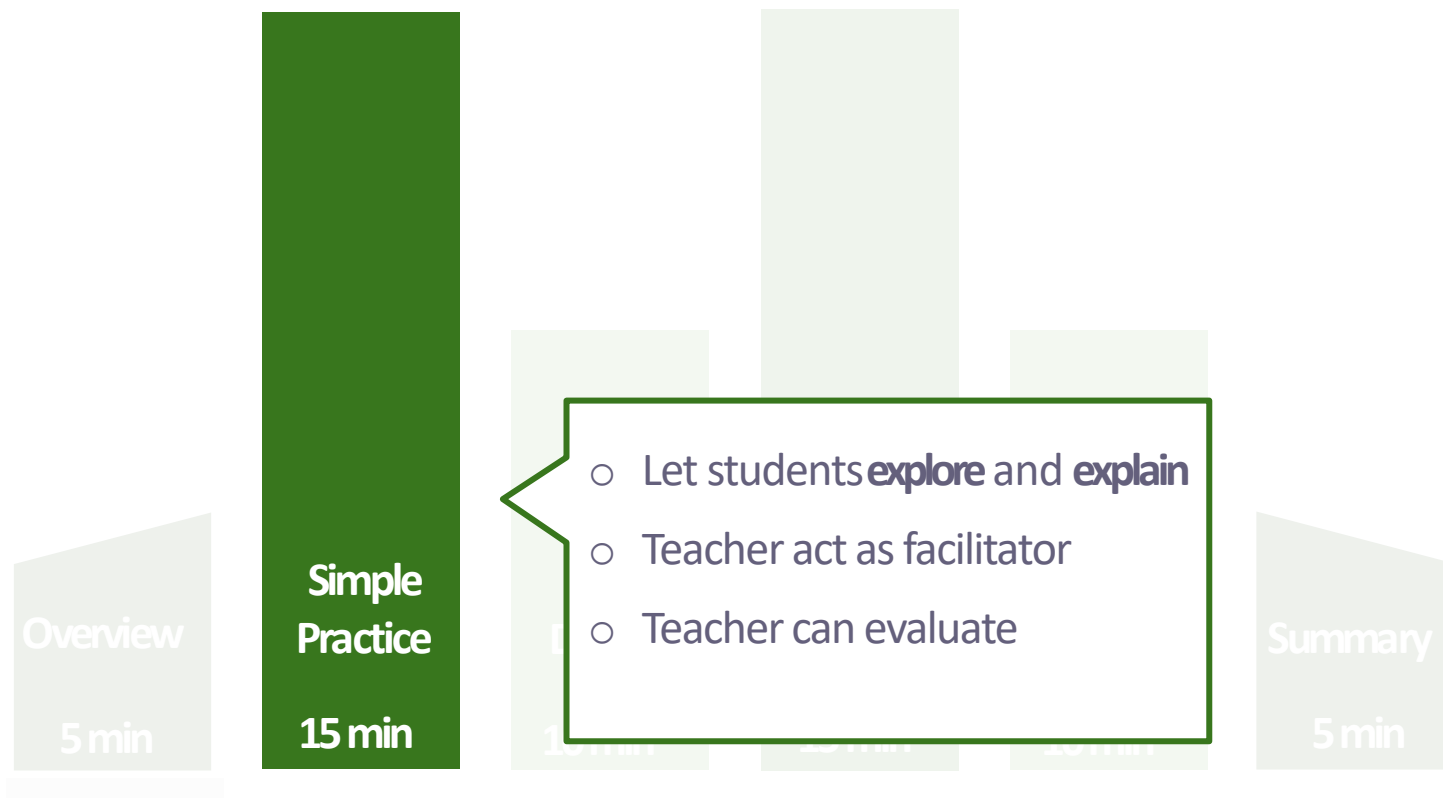

5 min

(i.e. active learning strategies?)

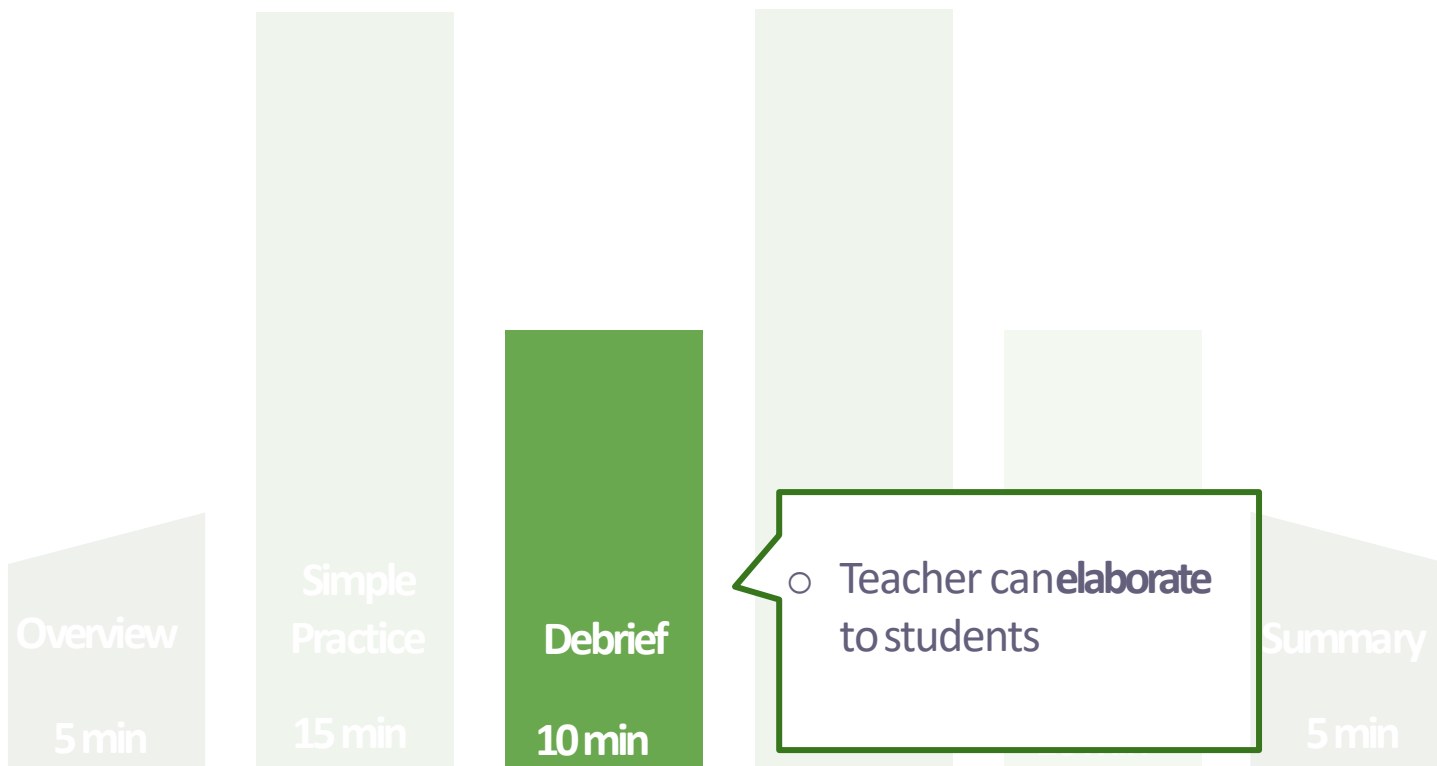

STRUCTURED FACILITATION BOOKEND MODEL TO STRUCTURE A CLASS

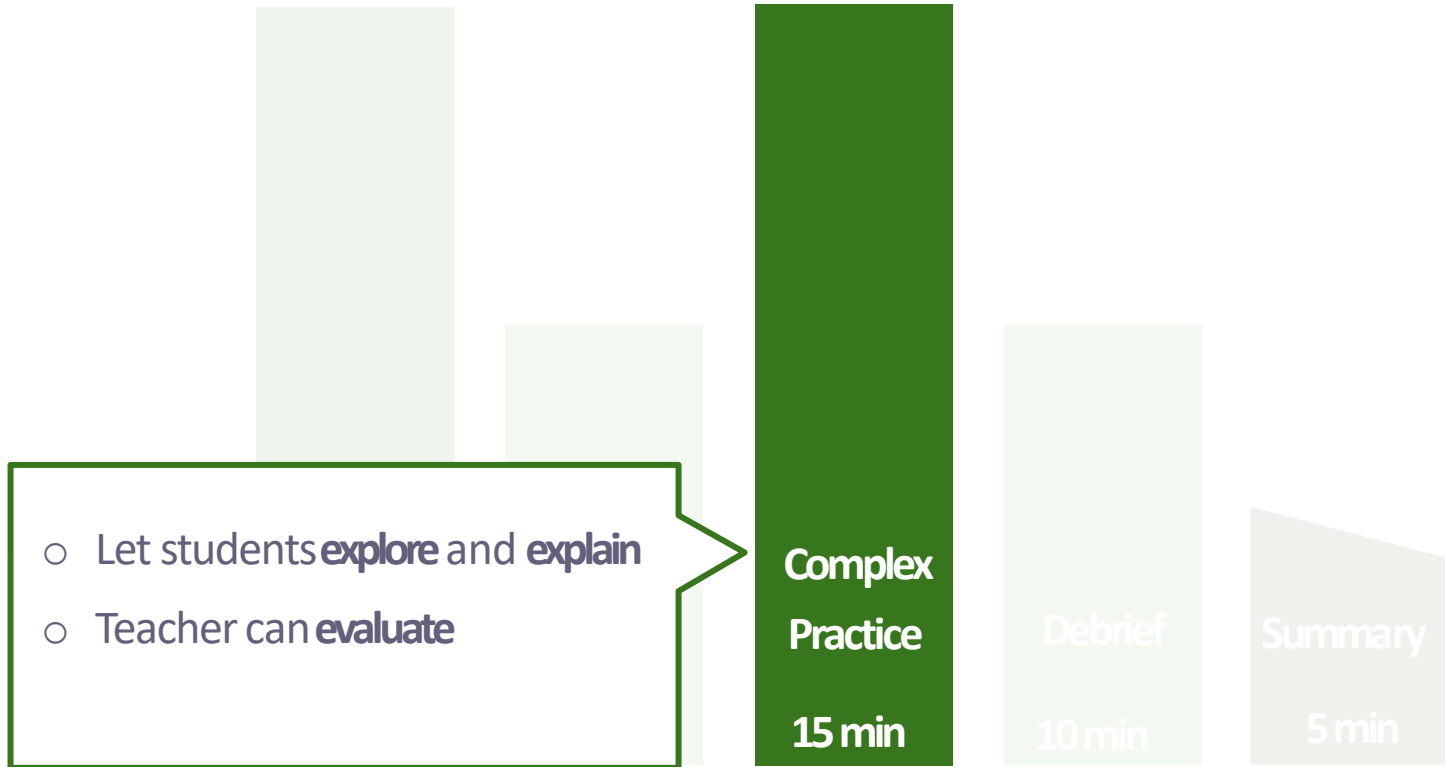

STRUCTURED FACILITATION BOOKEND MODEL TO STRUCTURE A CLASS

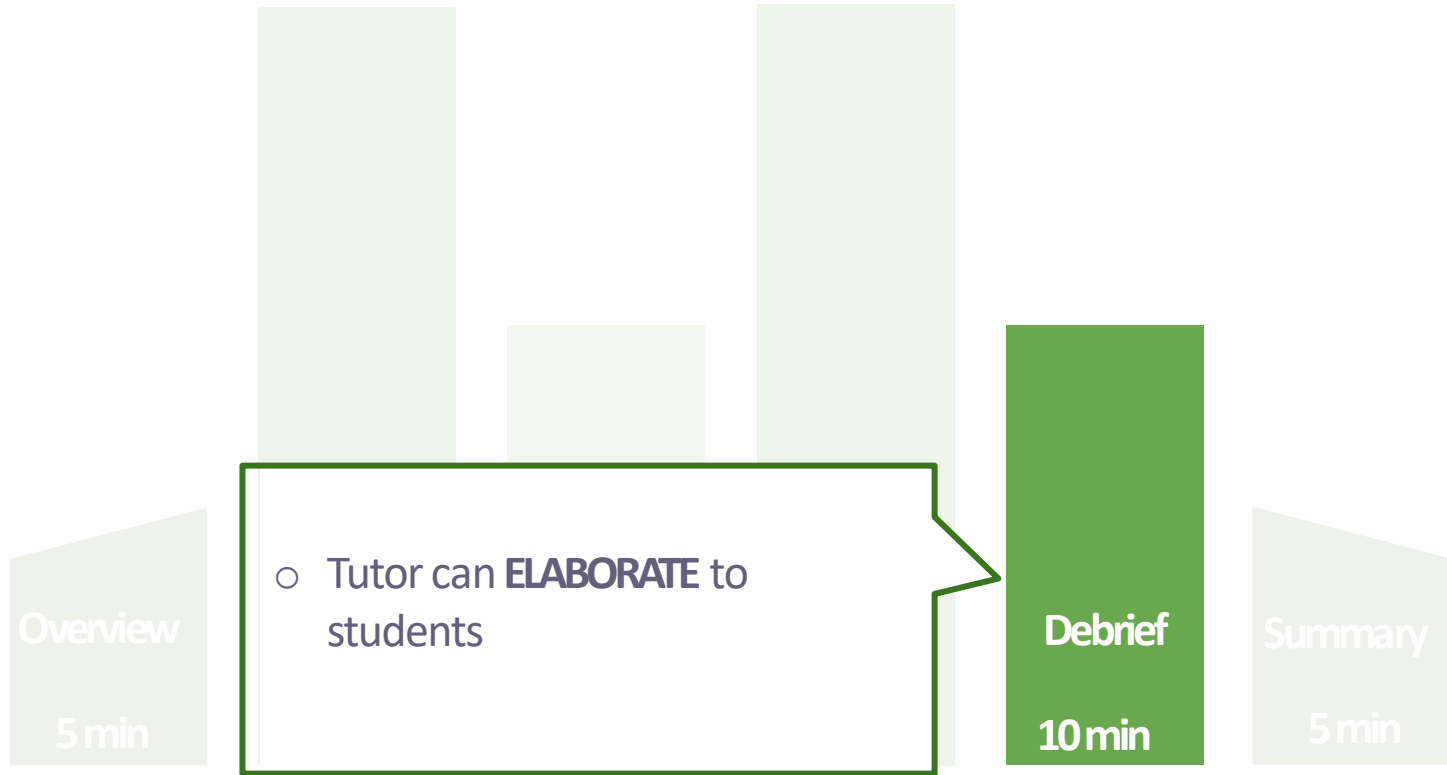

STRUCTURED FACILITATION BOOKEND MODEL TO STRUCTURE A CLASS

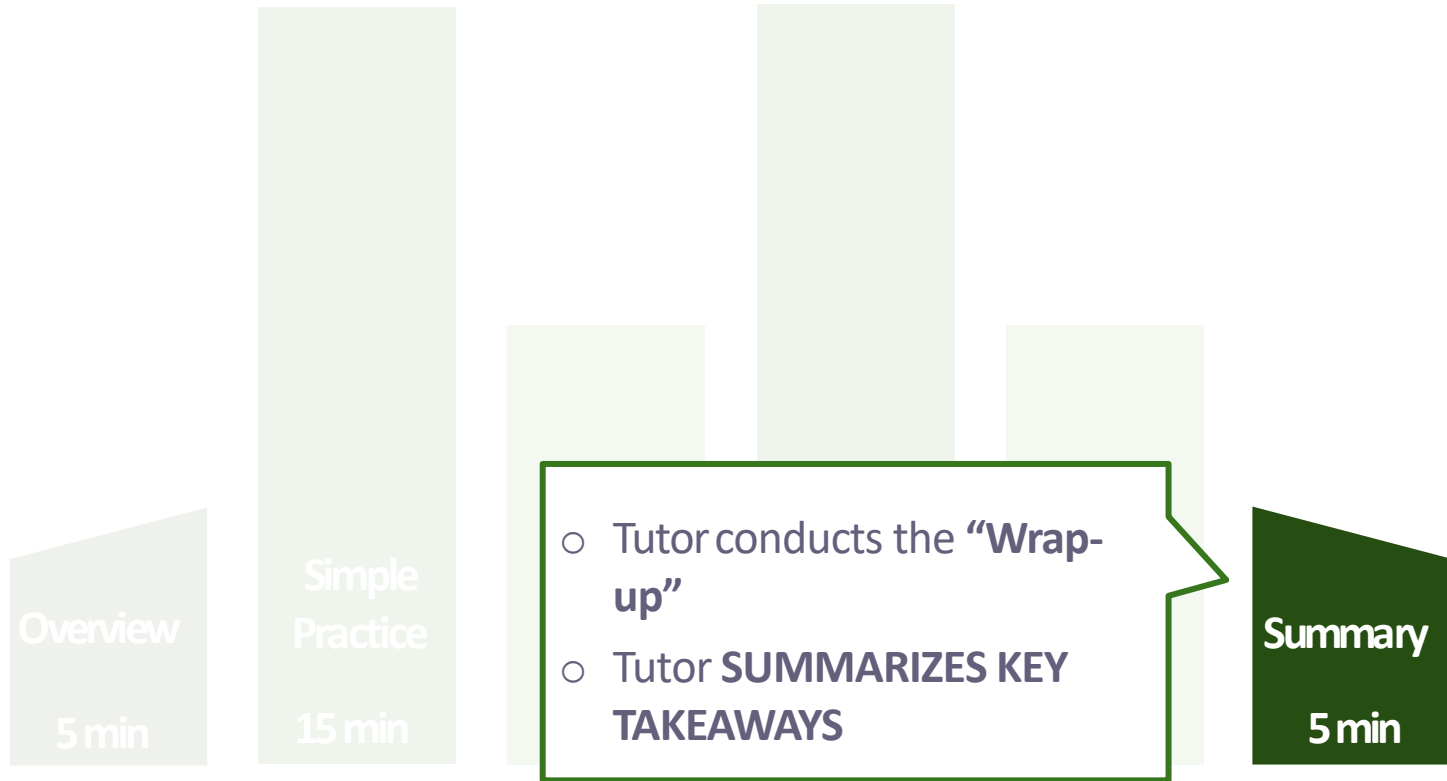

STRUCTURED FACILITATION BOOKEND MODEL TO STRUCTURE A CLASS

STRUCTURED FACILITATION BOOKEND MODEL TO STRUCTURE A CLASS

STRUCTURED FACILITATION BOOKEND MODEL TO STRUCTURE A CLASS

IN-CLASS ACTIVITY – ‘THE 5 MINUTES LESSON PITCH’

Goal: Use the Bookend Model as your overall structure to design a 5-minute mini-lesson for the following topic

Topic: How to Make a Perfect Cup of Coffee (or Tea)

In Groups of 3 – 4 students, **quickly outline:**

- **The Hook (1 min):** How will you **Engage** the class? (The "Why")
- **The Core (3 min):** What is one **simple activity** you would do? (Explore/Explain)
- **The Wrap-up (1 min):** How will you **Summarize** the key takeaway?

IN-CLASS ACTIVITY – ‘THE 5 MINUTES LESSON PITCH’

Group Sharing: We'll hear a 1-minute pitch from 2-3 groups.

As you listen, identify:

- The **Hook** they used.
- The **Activity** they designed.
- How they made it **interactive**.

Discussion Question:

"How did using a simple structure like the Bookend model help you plan your mini-lesson so quickly?"

FACILITATION TOOLS

This is a topic to be covered by Jialin in the next class. 😊

Conclusion

04

IN SUMMARY

1. A good presentation is **well-structured, visual,** and **well-practiced.**
2. Good facilitation is **student-centered**, using models like Bookend and 5E.
3. Your goal is to **guide discovery**, not just deliver information.

Reminder

1. Review the course materials for Module 3
2. Complete the Reflection for the Module 3 (Due: 23:59, 31st of Oct, Friday)
3. Get your micro-teaching demos ready for the THREE Groups
4. **Complete pre-class quiz for Module 3** (Due: 23:59, 30th of Oct, Thursday)

Exit Survey: Effective Presentation
& Facilitation Skills

THANK YOU! QUESTIONS?
